

TAKE CONTROL OF YOUR FACILITIES

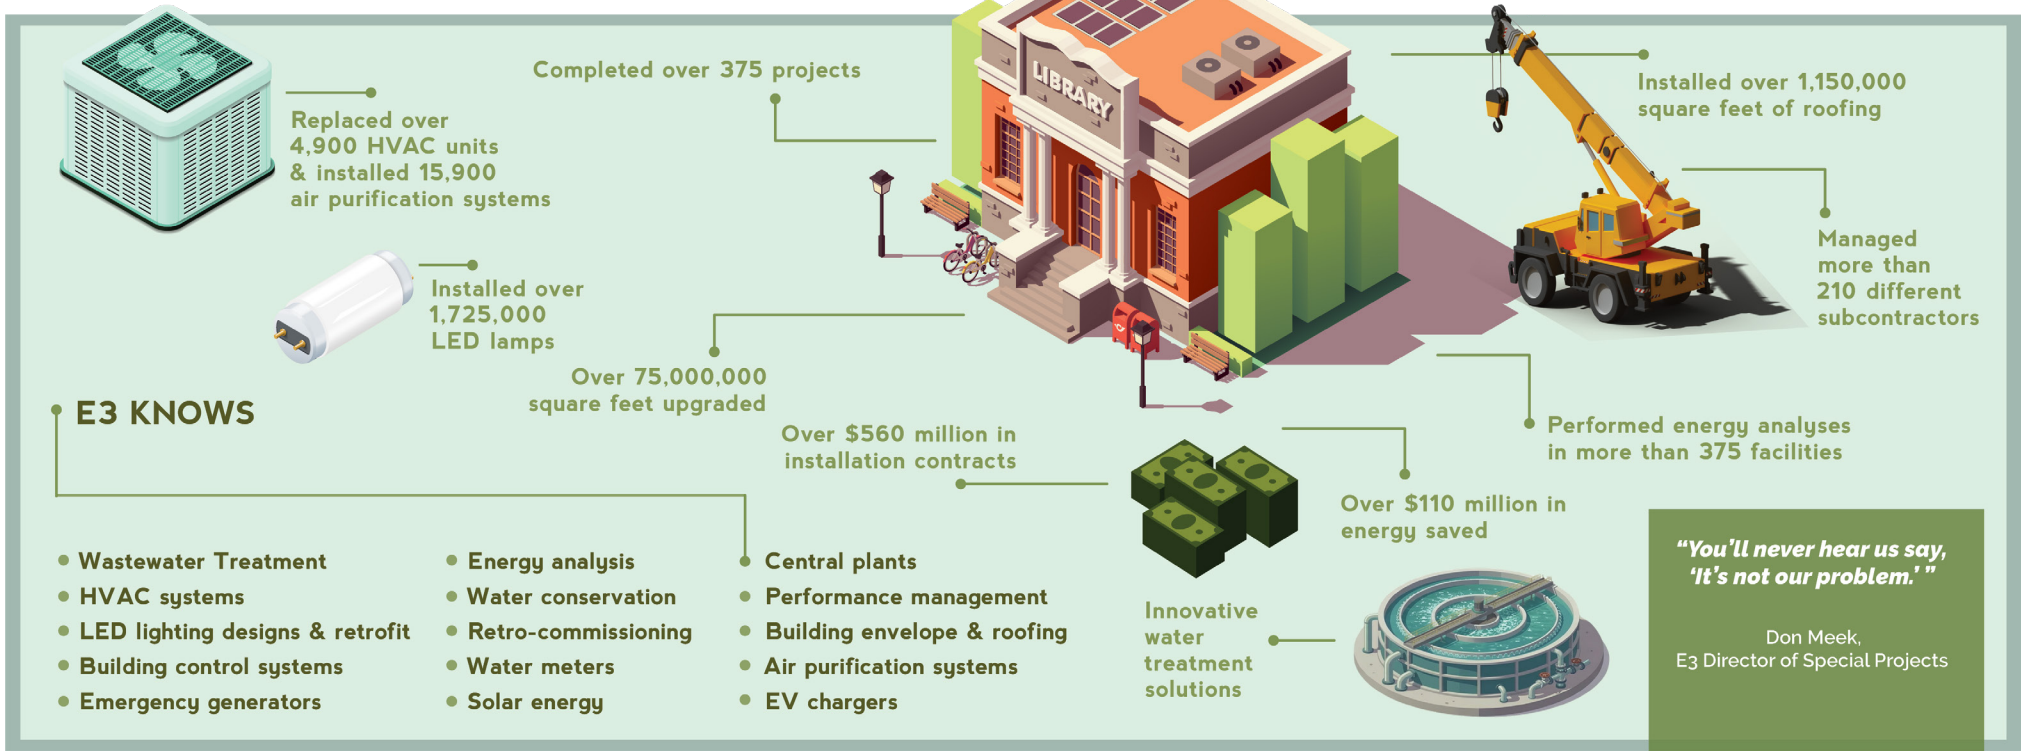

WHAT WE DO FOR CITIES & COUNTIES

E3 is a leading design-build partner in Texas, providing integrated facility and infrastructure solutions that increase efficiency, resiliency, and sustainability for cities and municipalities. Our in-house engineers and construction teams work hand-in-hand to develop

and deliver efficient, high-impact projects, proactively addressing aging infrastructure to help clients avoid rising utility costs, regulatory risk, and system failures. Our design and installation expertise spans **HVAC, electrical, wastewater treatment**

systems including technologies such as **BiCARBUS** and **Nano-bubble**, **LED lighting, indoor air quality, emergency power, solar energy, and building automation**. From water production and distribution to wastewater optimization

and conservation, we help cities manage every drop efficiently. E3 has completed over 300 projects, consulted with over 350 clients, and upgraded over 65 million sq ft of facilities, including a wide range of municipal and water infrastructure projects across Texas.
